

JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Wednesday - 30 December 1964

STAT L. [] Talked with George Murphy of the Joint Committee on Atomic Energy as to a possible time for the Agency to brief the Committee. Previously Murphy had suggested the 5th or 6th of January. After discussion with Messrs. Wheldon and Cline, Murphy was advised that the following week would be better from the Agency viewpoint although we had not cleared this with the Director. Murphy checked this with the Chairman and advised that they would like to head for a target date of the 12th and hoped that the Joint Committee on Atomic Energy would be the first Committee being briefed by the Director. I informed him we had no other scheduled hearing but it was possible that our Subcommittees could request briefings before this date. In any event, we agreed that we would shoot for the 12th with the understanding that there were no firm commitments either way. OSI and Mr. Cline's office have been advised.
